

Four way clamp is constructed of aluminum die-casting which is very lightweight and durable. The unique spring locking device makes locking just a snap and easy. The equipped P.U. pad also reduces surface damage and enhance gripping action. This is for coupling onto any tube size from 35mm to 50mm such as stands, kupoles, or scaffolds in vertical or horizontal way. The safety loading weight is up to 30KG ( 66 lbs)

**KCP-950P 4 Way Clamp**  
for 35mm to 50mm tube

**KCP-930P 3 Way Clamp**  
for 25mm to 35mm tube

Big knob for better grip  
Milling sink for safety use

**KS-091**  
Lightweight aluminum 5/8"  
stud for grip head  
(total length: 108mm)

**KS-092**  
Lightweight aluminum 5/8"  
Male Adapter  
(total length: 66mm)

Application:  
Adapters connected with  
4 way clamp

**KS-093**  
Lightweight aluminum 5/8"  
Female Socket Adapter

**KCP-620P**  
Lightweight aluminum Petite  
Clamp for 16mm (5/8") tube

Application

With Camare Bracket

With Lighting Fixture
