

Kupo c stand w/Turtle Base is easy to set up, durable and solid stand specially designed for professional photographers, film makers and videographers. The unique leg locking system makes deploying and collapsing the legs a snap and can be done within second with pulling up the spring ring and twist the stand. More features are including :

1. Zinc casting alloy makes the leg base holders most solid and sturdiest.
2. Stainless steel heli-coli give protection for the aluminum riser from being damaged by stainless steel bolt of knob.
3. The unique hollow design of the junior pin receiver on the base also makes dust, sands and water pass through easily for better cleaning and easy maintenance.

Patented!

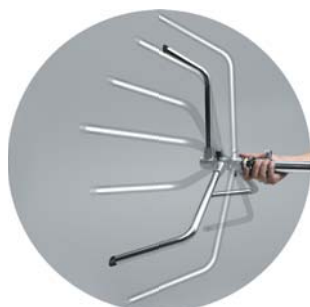

The innovative spring ring locking system designed.

Demonstration of deploying Kupo turtle base C stand

1) Keep the legs up and pull up the spring ring.

2) Twist the stand and release the spring ring.

3) Completely setup after a snap deploying.

C stand Base:

C stand base may be used as a very low stand for backlites or different types of stand with various extension columns. The compact size is also available for more lightweight, better storage and transportation.
